

# Soft Touch® Bases

Progressive Release

## A Series Premium Bases

Soft Touch "Progressive Release" bases are molded from durable cut resistant polyurethane. Made in the USA, all of our bases are designed to flex and absorb energy as a player slides into the base. In the case of uncontrolled slides, the "Progressive Release" action allows the base to flex until enough force is applied to "pop" the base free from the mount, unlike any stationary base. Proven over 15 years of play, "Progressive Release" bases out-perform standard bases. Soft Touch bases are fully warranted against failure due to defective materials for one full year.

### Product Information

With Soft Touch Premium bases, you get the ultimate in safety, installation and maintenance. The patented 7" box mounting system remains in-ground for a full season of play. The flexible plastic design provides the ultimate in safety and the wide opening makes cleaning out dirt a snap. Lastly, these bases are constructed with the exclusive "Progressive Release" design, providing the latest safety technology.

15" base, 7" plastic in ground mount, tapered plug  
Soft Touch Order#: A15

Double first base, 7" plastic in ground mount, tapered plug, spike down disk, spike  
Soft Touch Order#: A15DBL

With the Soft Touch double first base, both fielder and runner have their own base, to reduce the chance of collision.

Soft Touch in ground mounting system with 7" plastic in ground mount, foam drag plug and heavy duty drag plug

When bases are in use, a tapered plug is placed in the 7" plastic in ground mount. After play, replace the tapered plug with foam or heavy-duty drag plugs (sold separately).

MADE IN THE USA

*Warning: Sliding into a base represents a clear danger. All players must be advised of this hazard and properly trained in sliding technique.*

# Packages Soft Touch® bases in-ground mounting system includes 7" plastic receptacle and tapered plug

ORDER #	DESCRIPTION	IMAGES
A1500	3 - 15" bases 3 - 7" plastic in ground mounts 3 - tapered plugs
