Select your Extension and Goal - Direct Mount

10 year upright warranty!

Backboards are powder coated white

6" with 6' Extension Square Post, Direct Mount or 4" with 4' Extension Square Post, Direct Mount

Indestructible! The Titan is one of the most rugged outdoor basketball design available today. Outstanding features guarantee years of quality play.

- Upright and extension arm are constructed of 6"x 6" or 4"x 4" square 3/16" or 1/4" thick galvanized steel - provides greater strength and rigidity than round poles
- Easy to install at any height and can be adjusted after resurfacing
- Official size 42" x 72" backboard, powder coated white
- Choice of three heavy-duty goals
  - Backboard and goal are directly mounted to the extension arm for exceptional strength, further reinforced by a rear support brace
  - Framework galvanized after fabrication
  - Ten year warranty on upright!

Basketball Court Stencil

Quickly, easily and accurately allows you to paint a regulation basketball court on any driveway, patio or play area in the yard. No measuring or guesswork! Simply unroll the precision-cut stencils, tape down, and you are ready to go. A free paint roller is included. Just roll the paint over the stencil holes, when you are finished painting, pull up the stencil and your court is ready for play. Finished court size is approximately 13x21 feet.

BCS-1 \$24 ea 5 lbs.

The innovative patent pending TrueBounce® backboard gives players a "True" bounce while playing on an indestructable board. This is the best of both worlds for schools, parks and home use.

**NEW**

### FEATURES:

- **250 times stronger than glass AND Shatterproof**
- Approximately 30% lighter than conventional glass backboards

### BACKBOARD EDGE PADDING

Safe-Pro Backboard Edge Padding  
available on page 82.

### POLE PADDING

Pole Padding available on page 76.

The TrueBounce® Backboard is made with a near indistructable playing surface that is made from a 1/2" thick polycarbonate. The surface contains 1/2" perforated holes allowing for enhanced play through our patent pending technology. The shot box and perimeter striping is etched into the surface and is available in many colors.

The heavy duty "E" channelled aluminium frame creates an extremely durable backstop while remaining lighter than standard glass systems.

**Each board contains perforated holes to release the balls energy and create a "true bounce" off the backboard.**
