### Center Court Wooden Posts

These premier posts are hand crafted in England from American Ash with brass winder and fittings. They are fitted with an insert to be used with standard 3" ID round ground sleeves (not included, see SE1235708). Includes winder post with brass winder and anchor post.

SE1234503

### Universal Wood Posts

These posts have been used at Wimbledon for over 80 years. They are hand crafted in England from American Ash with brass winder and fittings. This traditional Wimbledon post set has cast iron shoes and is designed to hook into the cast iron ground base (not included, see SE1235685). Includes winder post with brass winder and anchor post.

SE1234497

Throughout their 100 year history, Edwards Sports Products have been associated with tennis at the highest level, supplying Grand Slam tournaments around the world, including Wimbledon & US Open. The famous 40LS net features double netting on the top six rows and a specially designed polyester headband which maximizes durability and minimizes distortion. The 30LS, 30LSDC and 40LS feature extra heavy duty 3.5mm braided polyethylene twine. These tennis nets have a quad stitched white top band & a plastic coated steel cable. The 30LS, 30LSDC and 40LS use only the finest quality materials.

## TUFFY® WINDSCREEN

**AER-FLO®**

### Made Exclusively of VIPOL Matrix Material

This super tough fabric outperforms conventional windscreens because 50% more micro-fibers are woven into it. It's more sun resistant, virtually tear-proof, and the most puncture resistant of all windscreens.

Tuffy Windscreen features LOCK-STITCHED sides and corners to assure that they do not unravel like conventional chain-stitched windscreens.

*So tough and durable,  
it's backed by a  
**4 YEAR Limited  
Factory Warranty.***

Tuffy Windscreen is available in 20 colors:

### Chroma-Bond® Imprinting

An exclusive process for vivid logo imprints that are much more durable than competitive spray-on or digital imprinting.

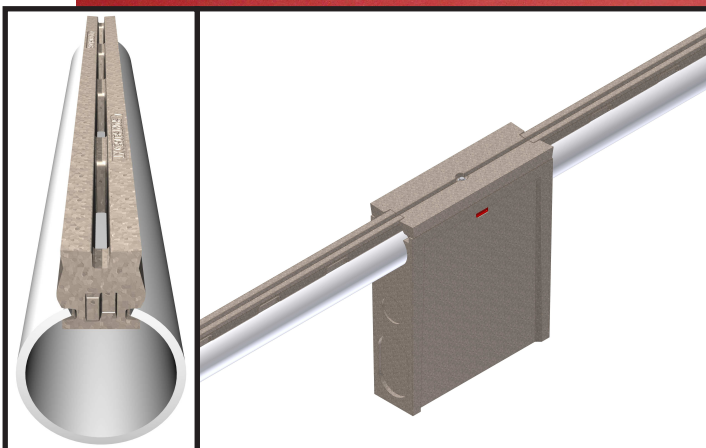

## TENNIS COURT DRAINAGE

Although sometimes overlooked or ignored altogether, ***adequate drainage for tennis courts is essential:***

- Protect and extend the life of tennis courts
- Minimize surface cracks due to poor drainage
- Minimize down time and maximize court time!

Asphalt or concrete courts can be especially difficult to drain when there is a continuous series of multiple courts. Linear drains such as SportsEdge's XT Slot Drain or Pro-S Channel Drain greatly simplify the design of such tennis facilities.

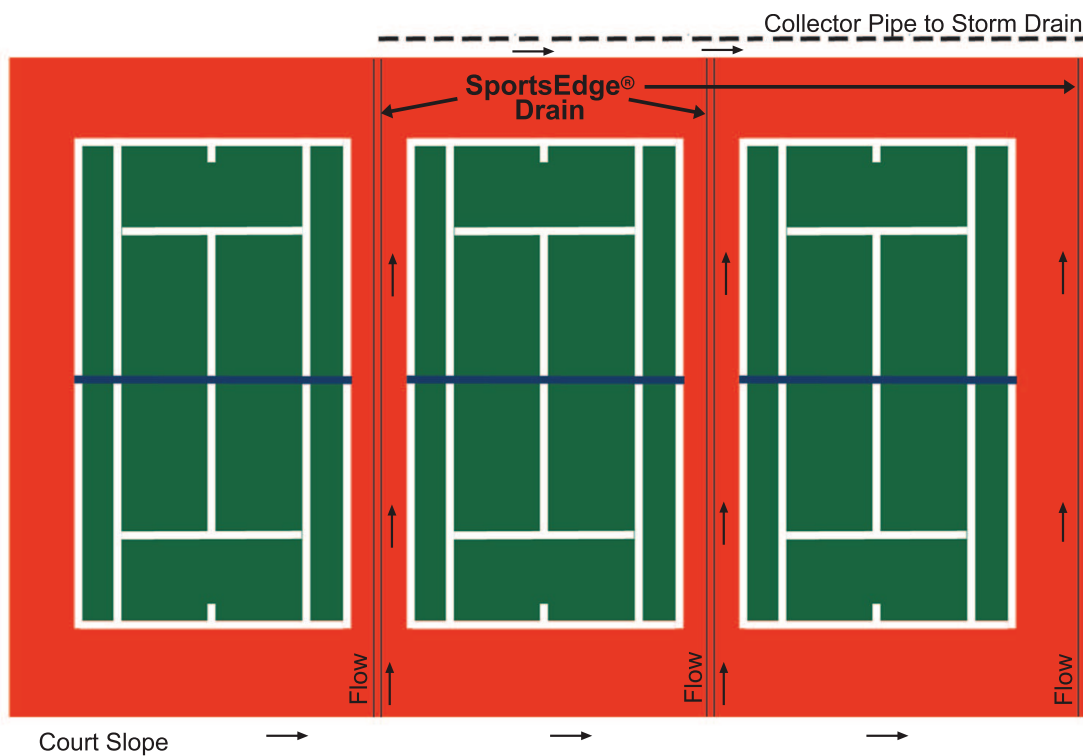

Tennis courts are typically designed with a cross slope that runs either end to end, or side to side. SportsEdge® tennis court drains are typically installed inconspicuously between courts or along fence lines and will easily intercept sheet flow coming off these tennis courts. The water is then discharged out of the small in-line catch basin into an adjacent storm drain.

***Don't Ignore It,  
Drain It!***

## EXAMPLE OF TYPICAL COURT DRAINAGE LAYOUT

# BENCHES

## 4' Courtside Bench
